Target Model (Receiving Thoughts)

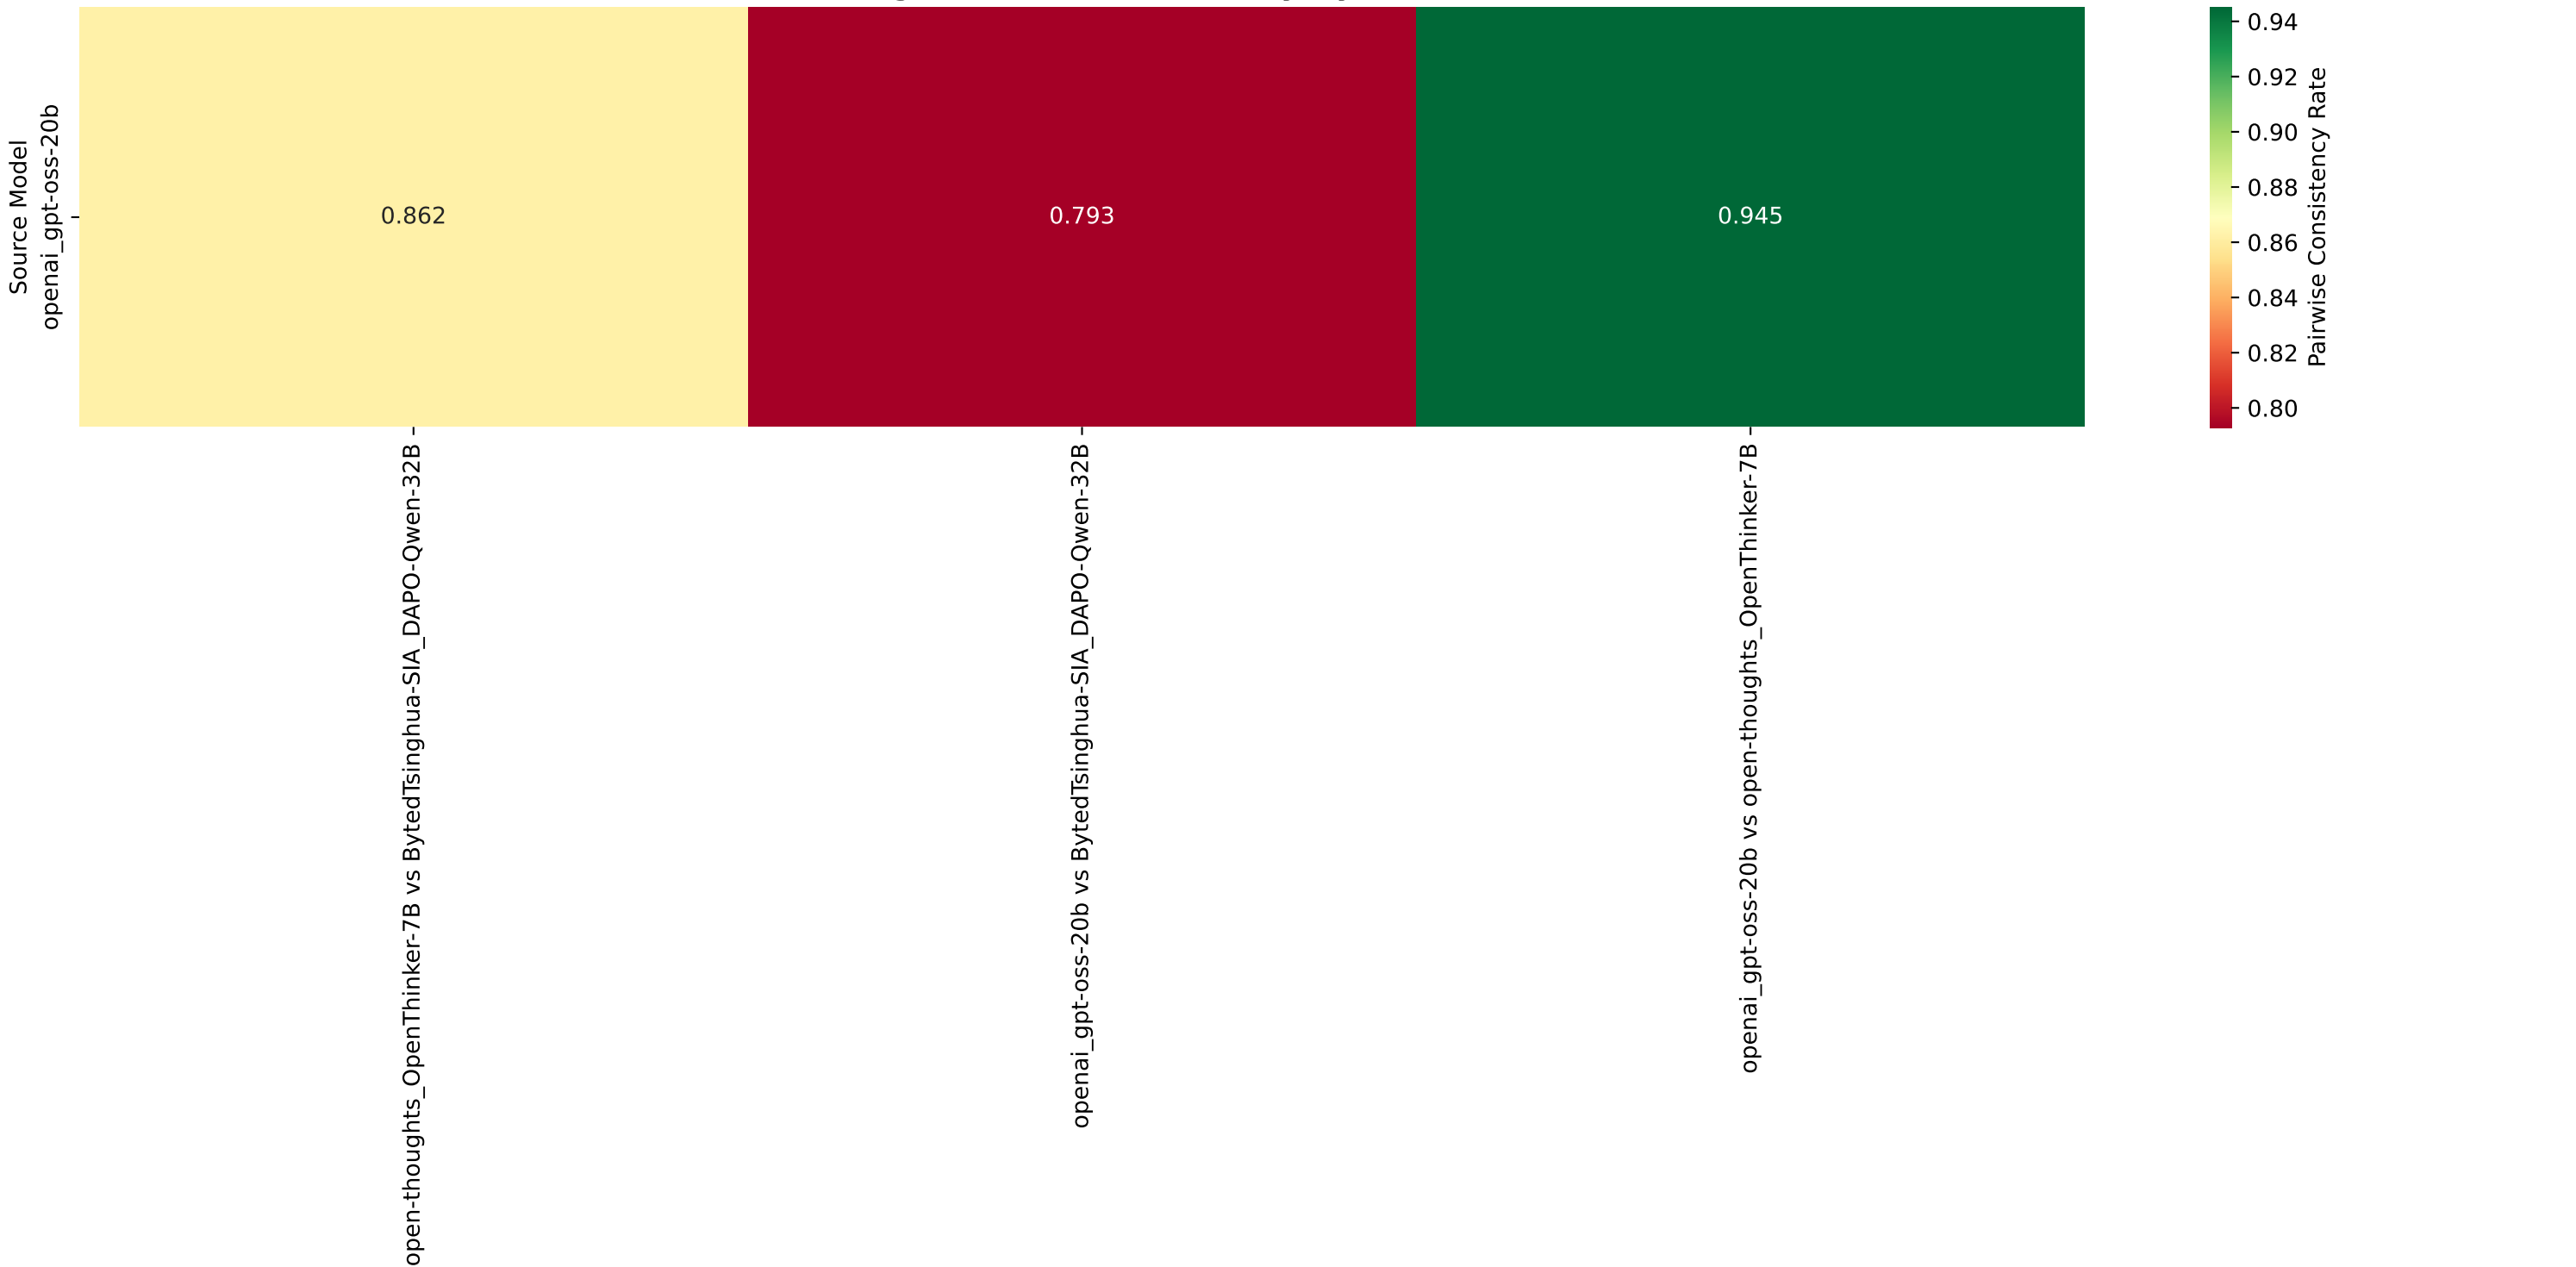

Consistency Rate

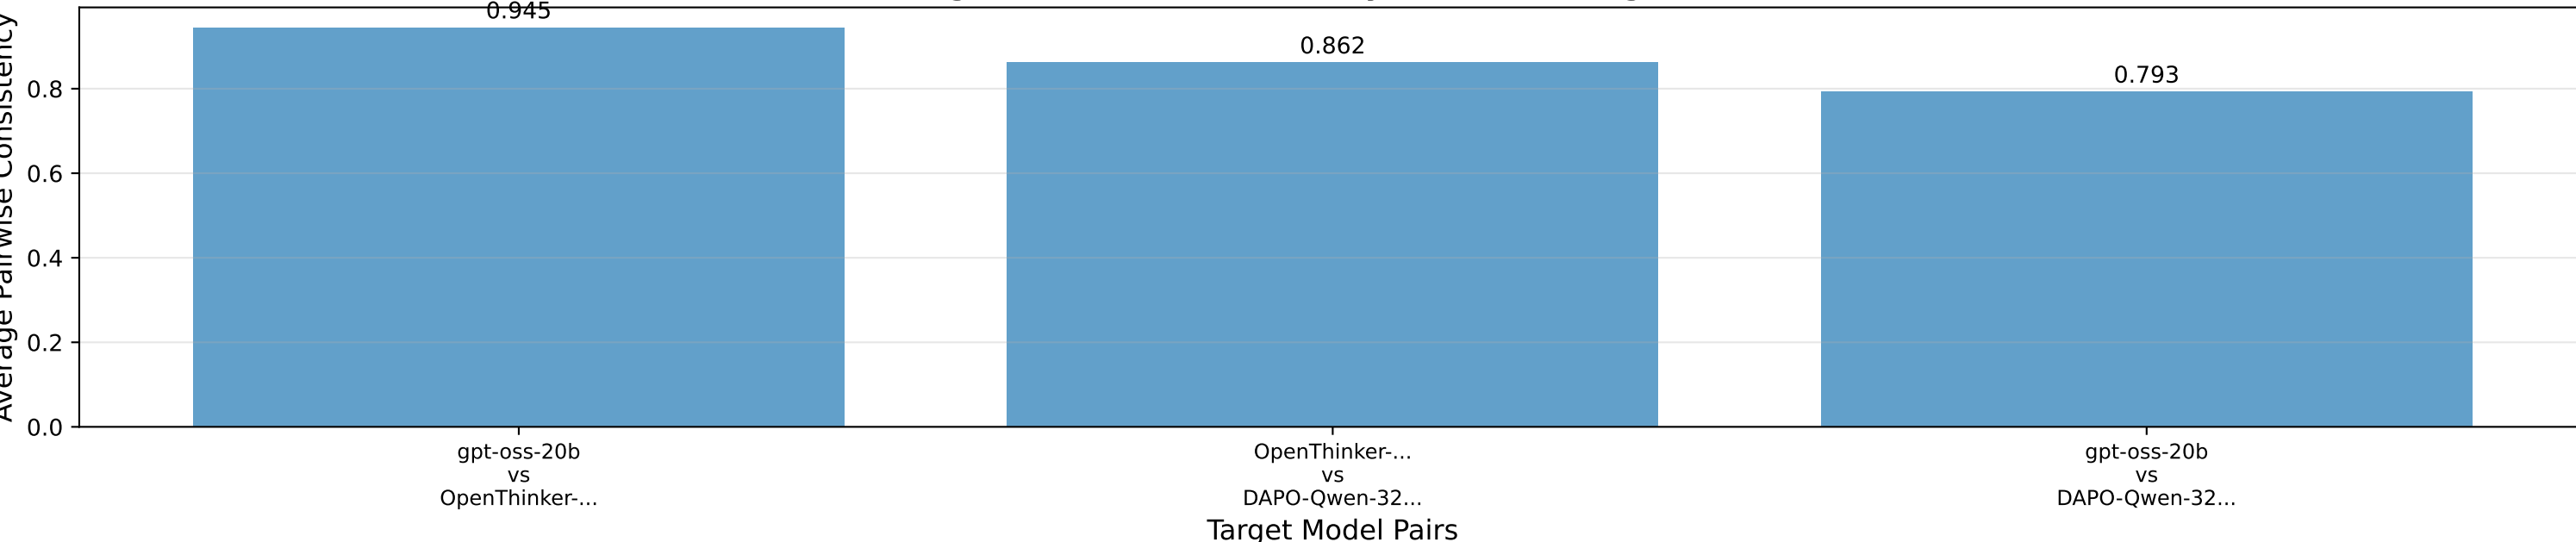

**Average Consistency by Model and Role**

Pairwise Target Model Consistency by Source

Average Pairwise Consistency Between Target Models

Detailed Model Consistency Analysis Summary

| Analysis Type | Comparison                                                             | Consistency Rate | Count (Consistent/Total) | Notes    |
|---------------|------------------------------------------------------------------------|------------------|--------------------------|----------|
| Source→Target | openai_gpt-oss-20b → openai_gpt-oss-20b                                | 1.000            | 95/95                    |          |
| Source→Target | openai_gpt-oss-20b → open-thoughts_OpenThinker-7B                      | 0.945            | 86/91                    |          |
| Source→Target | openai_gpt-oss-20b → BytedTsinghua-SIA_DAPO-01                         | 0.793            | 23/29                    |          |
| Target Pairs  | openai_gpt-oss-20b: openai_gpt-oss-20b vs open-thoughts_OpenThinker-7B | 0.945            | 86/91                    | Pairwise |
| Target Pairs  | openai_gpt-oss-20b: openai_gpt-oss-20b vs BytedTsinghua-SIA_DAPO-01    | 0.793            | 23/29                    | Pairwise |
| Target Pairs  | open-thoughts_OpenThinker-7B vs BytedTsinghua-SIA_DAPO-01              | 0.862            | 25/29                    | Pairwise |
